

**AMENDMENTS TO THE CLAIMS  
PURSUANT TO REVISED 37 CFR § 1.121**

The following is a listing of claims that replaces all prior versions, and listings, of claims in the application:

- |                                |  |
|--------------------------------|--|
| Claim 1 (Previously presented) | A method of treating migraines, comprising: <ul style="list-style-type: none"><li>a) providing:<ul style="list-style-type: none"><li>i) a patient having one or more symptoms of a migraine; and</li><li>ii) a fast dissolve formulation comprising two active ingredients and one or more inactive ingredients, wherein said two active ingredients are dihydroergotamine and a steroid and one of said inactive ingredients is a pH adjusting agent; and</li></ul></li><li>b) administering said formulation to said patient sublingually under conditions such that said one or more symptoms of said migraine are reduced.</li></ul> |
| Claim 2 (Original)             | The method of Claim 1, wherein said dihydroergotamine is a pharmaceutically accepted salt.   |
| Claim 3 (Original)             | The method of Claim 1, wherein said dihydroergotamine is a pharmaceutically accepted base.   |
| Claim 4 (Original)             | The method of Claim 1, wherein said sublingual administration is via a liquid.   |
| Claim 5 (Original)             | The method of Claim 4, wherein said liquid is administered by a spray.   |
| Claim 6 (Original)             | The method of Claim 4, wherein said liquid is administered by drop.  |
| Claim 7 (Original)             | The method of Claim 1, wherein said sublingual administration is via a paste or gel.   |

Claim 8 (Original)      The method of Claim 1, wherein said sublingual administration is via a tablet or compressed powder.

Claim 9 (Cancelled)

Claim 10 (Canceled)

Claim 11 (Canceled)

Claim 12 (Canceled)

Claim 13 (Previously presented)      The method of Claim 1, wherein one of said inactive ingredients is an effervescent agent.

Claim 14 (Canceled)

Claim 15 (Canceled)

Claim 16 (Previously presented)      The method of Claim 1, wherein said steroid is a glucocorticoid.

Claim 17 (Previously presented)      The method of Claim 16, wherein said glucocorticoid is selected from the group consisting of cortisol, cortisone, prednisolone, and dexamethasone.

Claim 18 (New)      A method of treating migraines, comprising:

- a)      providing:
  - i)      a patient having one or more symptoms of a migraine; and
  - ii)     a fast dissolve formulation comprising dihydroergotamine; and
- b)      administering said formulation to said patient sublingually under conditions such that said one or more symptoms of said migraine are reduced.

Claim 19 (New)      A method of treating migraines, comprising:

- a)      providing:
  - i)      a patient having one or more symptoms of a migraine; and
  - ii)     a formulation consisting of dihydroergotamine and cortisol.
- b)      administering said formulation to said patient sublingually under conditions such that said one or more symptoms of said migraine are reduced.
